"A Metropolitan Market"

It never occurred to us until the other day a customer remarked, "You certainly have a metropolitan market." Our sole idea has always been to have the best market in El Paso. If it impresses a stranger as "metropolitan," it is all right, but we prefer to have the home folks continue to say, "Nowhere like Nations when it comes to getting the best things to eat."

Delegates to Constitutional Convention Named From Twelve Counties.

Santa Fe, N. M., Aug. 18 .- One of the disconcerting features of the present campaign, to the Democrats, is the small vote that they are polling at the direct primaries. In Chaves county only one-third of the vote was polled; in Curry county only one-half and in Quay county less than one-fourth.

Another surprising revelation is the growth and tenaciousness of the Socialsoil, now numbers fully 5000 voters, a significant fact, when it is remembered L. House, that at the last two general elections, Rooseve the difference between the votes poiled by the Republicans and by the Democrats, was only a few hundred. The Republicans claim with some show of reason that the majority of Socialists come from Democratic ranks and that the Democrats themselves are to blame for encouraging the agitation for socialistic legislation.

WATER TO BE CONSERVED IN FT, SUMNER RESERVOIR

Officers Appointed for Land Office to Be Opened in October: Cantaloupes and Melons Pientiful.

Fort Sumner, N. M., Aug. 19.-It is estimated that the water which went to waste here the last 10 days would sup-ply between 50,000 and 100,000 acres of land for a whole season. Just above here there is a natural site for an immense reservoir that could impound it all and furnish both water and power for the town and adjacent country The quality of the local cantaloupes and watermelons are still attracting fa

vorable mention. The appointment of A. E. Curren of Clovis and Enrique Salazar of Las Vegas to the registership and receivership of the local land office and the setting of October 1 as the date for opening the office are of considerable local interest. The question of a building is not yet settled, but it is expected that a new building will be put up near the bank. The grass on the range is in splendid

Quay County Man Raises Three Tons From Twelves Acres Planted.

EL PASO HERALD

Tucumcari, N. M., Aug. 19.—E. G. Rowell, of Kirk, a postofice thirty-five miles southeast of Tucumcari, is in town seeking a market for his crop of broom corn which he has raised this season on his farm. Mr. Rowell states that as an experiment he planted 12 acres in broom corn about the middle of May, from which he will raise about three tons. There are said to be from 600 to 1000 acres of this crop in his neighborhood, averaging one-fourth to one-third of a ton to the acre, which at the present market price of \$200 a ton in this city, will prove a valuable crop. A portion of the crop was ready for harvest in 60 days and all in 90.

A big acreage of broom corn has been put in surrounding this town, at San Jon and Bard City, and the farmers are sanguine of raising a crop, providing the frosts wait until the usual time of year for their appearance, as the rains of the last week or two have placed the ground in excellent condition.
